Although Nail Extensions are long lasting, hassle-free, and wonderful for 95% of clients, occasionally you may have to work with us to find a product that suits your nails better

Please be aware that every single client is individual and the products that work for one client may not work as well for you

Should you experience any problems whatsoever please return immediately, we will do all we can to help you. If your nails just come off please keep them and bring them into the Salon with you. Yours nails are guaranteed not to peel or flick off when first applied, if you knock or bang them they are designed to come off so less harm is made to natural nails. Guaranteed applies if you purchase aftercare kit and use as instructed. It is essential that you bring in the full nail if it comes off this way we can establish what the problem has been.

Whilst wearing nails there are some vital things you must do and some things you must be careful of, as follows:

YOU MUST ALWAYS

- Oil Your Nails once a day or as directed
- Use your white buffing block to gently buff nails once a week or as directed
- Maintain your nails every 2 weeks or as directed
- Always use non-acetone nail varnish remover
- Avoid products which may cause your nails to lift i.e. bleach-based sprays, wallpaper paste, products with high levels of oil or grease (like Vaseline)
- Avoid using your nails as tools, try to use your hands differently
- Be careful when cleaning or gardening, try to use gloves
- Be careful when opening car doors, kitchen cupboards etc.
